A WhitehorseWalks map to promote walking

PAST – PRESENT

Draft

As part of maintaining my whitehorseWalks website, I'm always looking for ways to encourage more people to get out walking in natural settings. Also walking festivals are a neat social walking event. Currently I'm trying to set one up in Whitehorse in the Yukon.

In 2025, as a Canadian walker who often visits the UK—and has gone to 4 UK walking festivals—I wanted to see if I could show locations of walking festivals. None of the sites that I found showed all festivals. Lists of festivals were quite sparse, especially in light of how many I've subsequently found and put on this map. It seems that a central registry would certainly benefit those like ourselves who looked for walking festivals in various areas at certain dates.

In 2026, this is still very much a concept map. Some 2026 festivals will be done before this 2026 draft gets wider distribution. I see growth eventually having a more organized section with a short intro to each festival: who runs it, age of festival, number of walks per day, number of days,...

Click on festival names to go to websites. Dotted lines are to make longer lines easier to follow. Festivals come and go. White entries are festivals that have happened in the past or simply not this year. Money? Volunteer capacity? Covid? Taking a break? They might restart? In 2026 I found a couple that restarted and some that had a festival in 2025, but not in 2026. Clearly a dynamic situation!

A next version will have lists in order by day and month as places often repeat festivals at the same time of year. Locations are my try at locating festivals (but I live in Canada and am guessing as to regional grouping. Lists will have mistakes and will for sure need updates. Let me know. Further updates will address places like Haltwhistle with its 2 Festivals in 2025 (but not in 2026!)

I'll also try and make it neater!

Festivals which have their own websites are much easier to track than ones that use a regional website that puts up a special web page for that year's festival and then removes it after the festival. Or those that build the date into the web page name. Looking for each, finding its website and seeing what each festival offered was a travelogue in itself!

The value will show in people being able to plan ahead and see coming year possibilities. Hopefully it can help create a buzz in attending a walking festival. It may even inspire people to start more.

The task of finding these various festivals is amazing. I keep stumbling on more!
